Class:	Motor Yacht	Guest Heads:	1		

Description

NERO | Tecnomar for Lamborghini 63 | 2022

€1.185 Million in Factory Options | 4,000 HP | Up to 60 Knots | Highly Customized Specification

NERO is an exceptionally highly specified 2022 Tecnomar for Lamborghini 63, combining unmistakable Lamborghini design with extraordinary performance and an extensive factory options and customization package originally valued at approximately **€1.185 million**.

Created through the collaboration between Tecnomar – The Italian Sea Group and Automobili Lamborghini, the Lamborghini 63 translates the DNA of the Italian supercar marque to the water. Inspired by the Lamborghini Sián FKP 37, her aggressive profile, lightweight construction, extensive use of carbon fibre and automotive-style cockpit make her one of the most distinctive performance yachts ever produced.

Powered by **twin MAN V12-2000 engines producing a combined 4,000 HP**, NERO offers supercar-level performance on the water, with a cruising speed of approximately 40 knots and a maximum speed of up to 60 knots.

The Lamborghini influence continues throughout the yacht, with carbon detailing, sharp geometric forms, supersport-inspired seating and an automotive-style helm creating an experience unlike that of a conventional motor yacht.

NERO was extensively customized during construction. Her original factory specification includes approximately **€1,018,200 in selected equipment plus €167,000 for the Custom Double Cabin Special Lounge configuration, representing approximately €1,185,200 in factory options and customization.**

Key Factory Options & Equipment

Custom Interior Configuration

NERO features the factory-selected **Custom Double Cabin Special Lounge** configuration, an approximately **€167,000 bespoke interior option** developed specifically for this yacht.

The combination of her customized accommodation, extensive carbon package, advanced manoeuvring systems, Seakeeper stabilization, premium navigation equipment and entertainment options distinguishes NERO from a standard-specification Lamborghini 63.

Built in 2022 and currently located in **Dubai, UAE**, NERO represents a rare opportunity to acquire a highly customized example of one of the world's most recognizable limited-production performance yachts.
