Length:	29 m 36 cm	Guest Cabins:	4		
Price:	€1,350,000	Crew Cabins:	2		
Condition:	Used	Guest Heads:	4		
Class:	Motor Yacht	Crew Heads:	1		

Description

PR Marine 2900 Senator | 1999

A **29.35 m (96'4") PR Marine 2900 Senator**, built in Germany in 1999 and combining distinctive Dutch design with a spacious four-cabin layout and impressive performance for a motor yacht of her size.

Designed by renowned **Mulder Design**, responsible for both her exterior styling and naval architecture, this yacht features a purposeful planing hull and timeless profile. Her interior was designed by acclaimed British designer **Evan K. Marshall**, creating generous guest areas and comfortable accommodation throughout.

The yacht offers accommodation across **four guest cabins**, including a Master, VIP, Double and Twin cabin, complemented by separate accommodation for up to four crew.

Powered by **twin MTU 12V 2000 M90 diesel engines** producing approximately 2,700 HP combined, and offers a cruising speed of approximately **19 knots** and a maximum speed of approximately **21 knots**.

Her 10,000-litre fuel capacity also gives her useful cruising capability, with a published economical range of approximately **1,382 nautical miles at 12 knots**. A relatively shallow draft of just **1.62 m (5'4")** further increases her versatility and allows access to cruising grounds that can be restrictive for many yachts approaching 30 metres.

The Yacht represents an interesting opportunity in the 30-metre market: a German-built motor yacht with naval architecture by Mulder Design, an Evan K. Marshall interior, four-cabin accommodation and proven MTU propulsion.

Key Features

- **29.35 m / 96'4"** overall length
- Built by **PR Marine AG, Germany**
- **Mulder Design** exterior and naval architecture
- Interior design by **Evan K. Marshall**
- Four guest cabins
- Master, VIP, Double and Twin cabin configuration
