Class:	Mega Yacht		

Description

KING OF HEART | Azimut 100 Jumbo | 2004

KING OF HEART is a **29.8-metre (97'9") Azimut 100 Jumbo**, built in Italy in 2004 and offering the generous interior volume, extensive exterior spaces and timeless profile that made the 100 Jumbo one of Azimut's most successful large motor yachts of its generation.

With a substantial **164 GT** of internal volume, KING OF HEART provides considerably more living space than many yachts of comparable length. Her accommodation is arranged across **four guest cabins**, comprising a Master Cabin, VIP Cabin and two Twin Cabins, providing a versatile layout for private cruising, family use or entertaining guests.

The main deck offers spacious social and dining areas complemented by a fully equipped galley, while the yacht's exterior spaces provide multiple areas for relaxing and entertaining. A particular highlight is the expansive flybridge, featuring a **Jacuzzi** and generous open-air space for guests to enjoy while underway or at anchor.

KING OF HEART is powered by **twin 2,000 HP MTU engines**, currently showing approximately **2,740 running hours**.

Electrical power is supplied by **twin 55 kW Kohler generators**. Both generators underwent a complete overhaul in **September 2025** and currently show exceptionally low running hours since overhaul of approximately **190 hours and 250 hours respectively**.

Entertainment equipment includes an onboard sound system, while her fully equipped kitchen and four-cabin arrangement provide everything required for comfortable extended stays on board.

Combining substantial 164 GT volume, four-cabin accommodation, powerful MTU propulsion and extensive guest areas including her flybridge Jacuzzi, KING OF HEART represents an attractive opportunity to acquire a proven Italian-built 30-metre motor yacht.

Currently located in **Dubai, UAE** and available for inspection.

Key Features

- Azimut 100 Jumbo
- Built in Italy in 2004
- **29.8 m / 97'9" LOA**
- **164 GT**
- Four guest cabins
