## Description

The Princess S72 is a distinguished cross-over model crafted by Princess International. It has been expertly designed to harmonize the sleek and dynamic aesthetics of their V range sports yachts with the expansive exterior spaces characteristic of the F range flybridge models. This yacht is powered by twin Caterpillar C32 engines, each delivering 1,800 horsepower (with 1,820 hours recorded as of March 2024), and features a Cummins Onan generator.

Accommodating up to six guests, the yacht includes three cabins, all of which are equipped with en-suite facilities. With a maximum speed of 35 knots and a cruising speed between 22 and 25 knots, it offers an exceptional cruising experience without compromising on comfort .

Beneath the cockpit, the design team at Princess has ingeniously incorporated a 3.9-meter tender garage, capable of housing a RIB and various water toys. Above this garage, one will find a spacious sunpad area, complemented by generous cockpit seating and a wet bar. Upon entering the saloon, guests are greeted by expansive windows on both sides, along with two sofas, providing a welcoming environment for indoor and outdoor enjoyment.

This particular vessel is further enhanced by fin stabilizers, a wet bar on the flybridge, and a dishwasher in the galley, among other features.

This presents an excellent opportunity for any prospective buyer. For further information or to schedule a viewing of this remarkable yacht, please do not hesitate to contact us.
