Price:	€4,200,000 (\$4,887,523)	Name:	VALKYRIE	Max Draft:	3 ft 10 in
Condition:	Used	Guest Cabins:	2		
Class:	Motor Yacht	Crew Cabins:	1		

Description

The VALKYRIE represents a rare opportunity to acquire one of the most exclusive and iconic sports yachts ever made. Delivered in 2024, this Tecnomar for Lamborghini 63 is born from the prestigious collaboration between Tecnomar – The Italian Sea Group and Automobili Lamborghini Centro Stile, merging the DNA of Lamborghini supercars with the excellence of Italian shipbuilding.

Inspired by the Lamborghini Sián FKP 37, VALKYRIE stands out for its aggressive lines, sculpted geometries, and an immediately recognizable design, making it the absolute star in any marina. Every detail has been designed to offer the perfect balance between luxury, technology, and extreme performance.

Powered by two MAN V12-2000 engines, each with 2,000 HP, for a total power of 4,000 HP, VALKYRIE reaches a maximum speed of 60 knots while maintaining a comfortable cruising speed of 40 knots. The sophisticated Flexi Drive Surface Drive system, combined with Joystick controls and the Bow Thruster, ensures exceptional maneuverability even in the tightest spaces.

With only 330 hours of operation for each main engine and 816 hours on the generator, the vessel has been maintained with the utmost care and is in excellent technical condition. All main systems are fully operational, electronic updates have been completed, and the most recent maintenance activities include the replacement of the aft engine room bilge pump, the renewal of the aft camera, and a general check of the onboard systems.

The interiors, designed according to Lamborghini's exclusive standards, offer a contemporary and refined environment characterized by the highest quality materials, integrated LED lighting, automotive-inspired surfaces, and custom finishes. The configuration includes two elegant cabins that can comfortably accommodate up to five people, in addition to a separate crew cabin.

The spacious cockpit and sunbathing areas have been designed to experience the sea with maximum comfort, while the large carbon hardtop protects the command station without compromising the sporty character of the yacht.

VALKYRIE is equipped with an extremely comprehensive inventory, including:

- Seakeeper 6 gyroscopic stabilizer
- Integrated Joystick system with Bow Thruster
- ZEN 30/50 desalinator
- 15 kW generator
- Air conditioning
- GPS, Radar, Autopilot, and advanced cartography with graphical depth sounder
- FLIR thermal camera for night navigation
- Multifunction touchscreen display
- 43" electric retractable TV
- Premium audio system
- Customizable RGB lighting
- Three underwater lights at the stern
- Two electric adjustable Up & Down outdoor tables
- Removable aft awning
- Two Lamborghini Seabob FS5 Limited Edition, included in the sale

Today, VALKYRIE is fully ready for use, with Dubai Duties Paid and Commercial Charter License already obtained, a feature that allows the new owner to use it immediately for both private use and charter activities in the United Arab Emirates. The yacht has recently successfully completed the sea trial following the issuance of the commercial license and is ready for immediate delivery.

Currently moored in Dubai, VALKYRIE represents one of the very few Tecnomar for Lamborghini 63s immediately available on the international market.

For the owner who wants to stand out, this yacht offers an unparalleled combination of Italian design, extreme performance, advanced technology, and absolute exclusivity, with the advantage of being ready for use and already enabled for charter activities, a feature that is extremely rare for this model.
