VIKING III

ABOUT

Built by Nedship to a design from Dixon Yacht Design, VIKING III is a 35.05m motor yacht constructed in 2004 and refitted in 2021, with further engine works completed in 2023. She is one of only two Centaurian 115 models built by Leight-Notika Yachts.

The yacht accommodates up to 10 guests in five cabins: a full-beam master suite on the main deck with an ensuite bathroom including a bathtub, two VIP cabins, and two guest doubles on the lower deck. Separate crew quarters allow for a team of seven.

Her interior, created by Gregory C. Marshall, features neutral-toned panelling, upholstery, and carpets. The saloon and dining area are arranged in an open-plan layout, offering flexibility for a future owner to modify the configuration.

Outdoor areas include a sun deck with a Jacuzzi, bar, and seating, as well as an aft dining area on the main deck. Additional amenities include a sauna and a garage with space for water toys.

She reaches a top speed of 22 knots and has a cruising speed of 16 knots, with a range of approximately 560 nautical miles.

The yacht is available for purchase and offers potential for use as a private vessel or as part of a charter program.
